FARADAY WORKSHOP – YEAR 5 AND 6

The Noise

From our Newsletter... The Noise visited to improve our environment. The group of volunteers from the New Life Church gave up their time to do many jobs around the school. This included painting walls, sheds and entrance halls, refreshing the playground paintings, washing benches and the pitch fence to name but a few! The final job was to re-weave the willow which was beginning to take on a wilder look!

All the work has been done through sharing God's love and it is a really blessing to all of us at school. It has made such a different to the environment, refreshing things for our time left here.

We would like to say a huge thank you to all 12 people volunteers who worked so hard. We really are very grateful.
